- Structural defects: none
- No of parking spaces: 30

CHALLENGES ENCOUNTERED

- Access was denied into some religious centers by the security personnel
- Indigenes of some volatile areas prevented LASBCA officials from properly carrying out their duties

RECOMMENDATIONS AND CONCLUSION

- The owner/developers of the above detected structures should be compelled to forward their development permits to the district office for further conformity checks
- Information regarding the development permits and land use information for each area within the districts should be provided by LASPPPA to assist LASBCA in enforcing the Urban and Development laws appropriately

THANK YOU
