INTRODUCTION

Lagos Mainland Local Government is a local government area in the Lagos Division of Lagos State, Nigeria.

Ebute Metta means "The three Harbours" in the Yoruba language. This was in reference to IDDO, OTTO and OYINGBO.

On the eve of the departure of some **European missionaries** from Abeokuta, the native Christian converts - fearing that the dominant traditionalists would descend on them in the absence of their European protectors and begged the Europeans to take them along to Lagos.

subsequently, Islam was propagated in **Mainland** through the movement of some renown Muslim clerics and scholars.
