**116. ESTATE BAPTIST CHURCH**

### 6.0 DATA CAPTURED

A total of 116 churches and 14 mosques were captured during this exercise. It was observed during the exercise that most of the worship centers lack adequate airspaces, setbacks and ample parking spaces to accommodate their worshipers. Most buildings are still in good condition but a lot more can be done.

## DATA ON PURPOSELY BUILT WORSHIP CENTRES

### 7.0 PHYSICAL ASSESSMENT OF STRUCTURES IN DISTRICT

The churches and mosques visited were all in good physical conditions with no visible signs of defects or distress noticed on any of the property.

### 8.0 CHALLENGES ENCOUNTERED

Some challenges encountered during the course of the exercise include;

1. Entry was denied into most religious centers.
2. Some of the religious centers were locked and can only be opened during service hours.
3. Due to the district falling under the Nigerian Civil Aviation Authority no fly zone, drones couldn't be flown to cover most of the mosques and churches respectively.

### 9.0 RECOMMENDATION

An awareness program should be carried out to encourage churches and mosque to get building plan approvals and certificate of fitness and habitation. The Agency should acquire drones that can fly within areas that falls under the No fly zone radius.

### 10.0 CONCLUSION

This exercise has enabled the district to have a comprehensive record of religious centers in Mosan Okunola District in respect of their physical structural appraisal status and Development permit status.
