

LAGOS STATE BUILDING CONTROL AGENCY (LASBCA)

**DOCUMENTATION
OF CHURCH AND MOSQUE
WITHIN NEW LEKKI DISTRICT,
LAGOS STATE.**

SEPTEMBER 2022

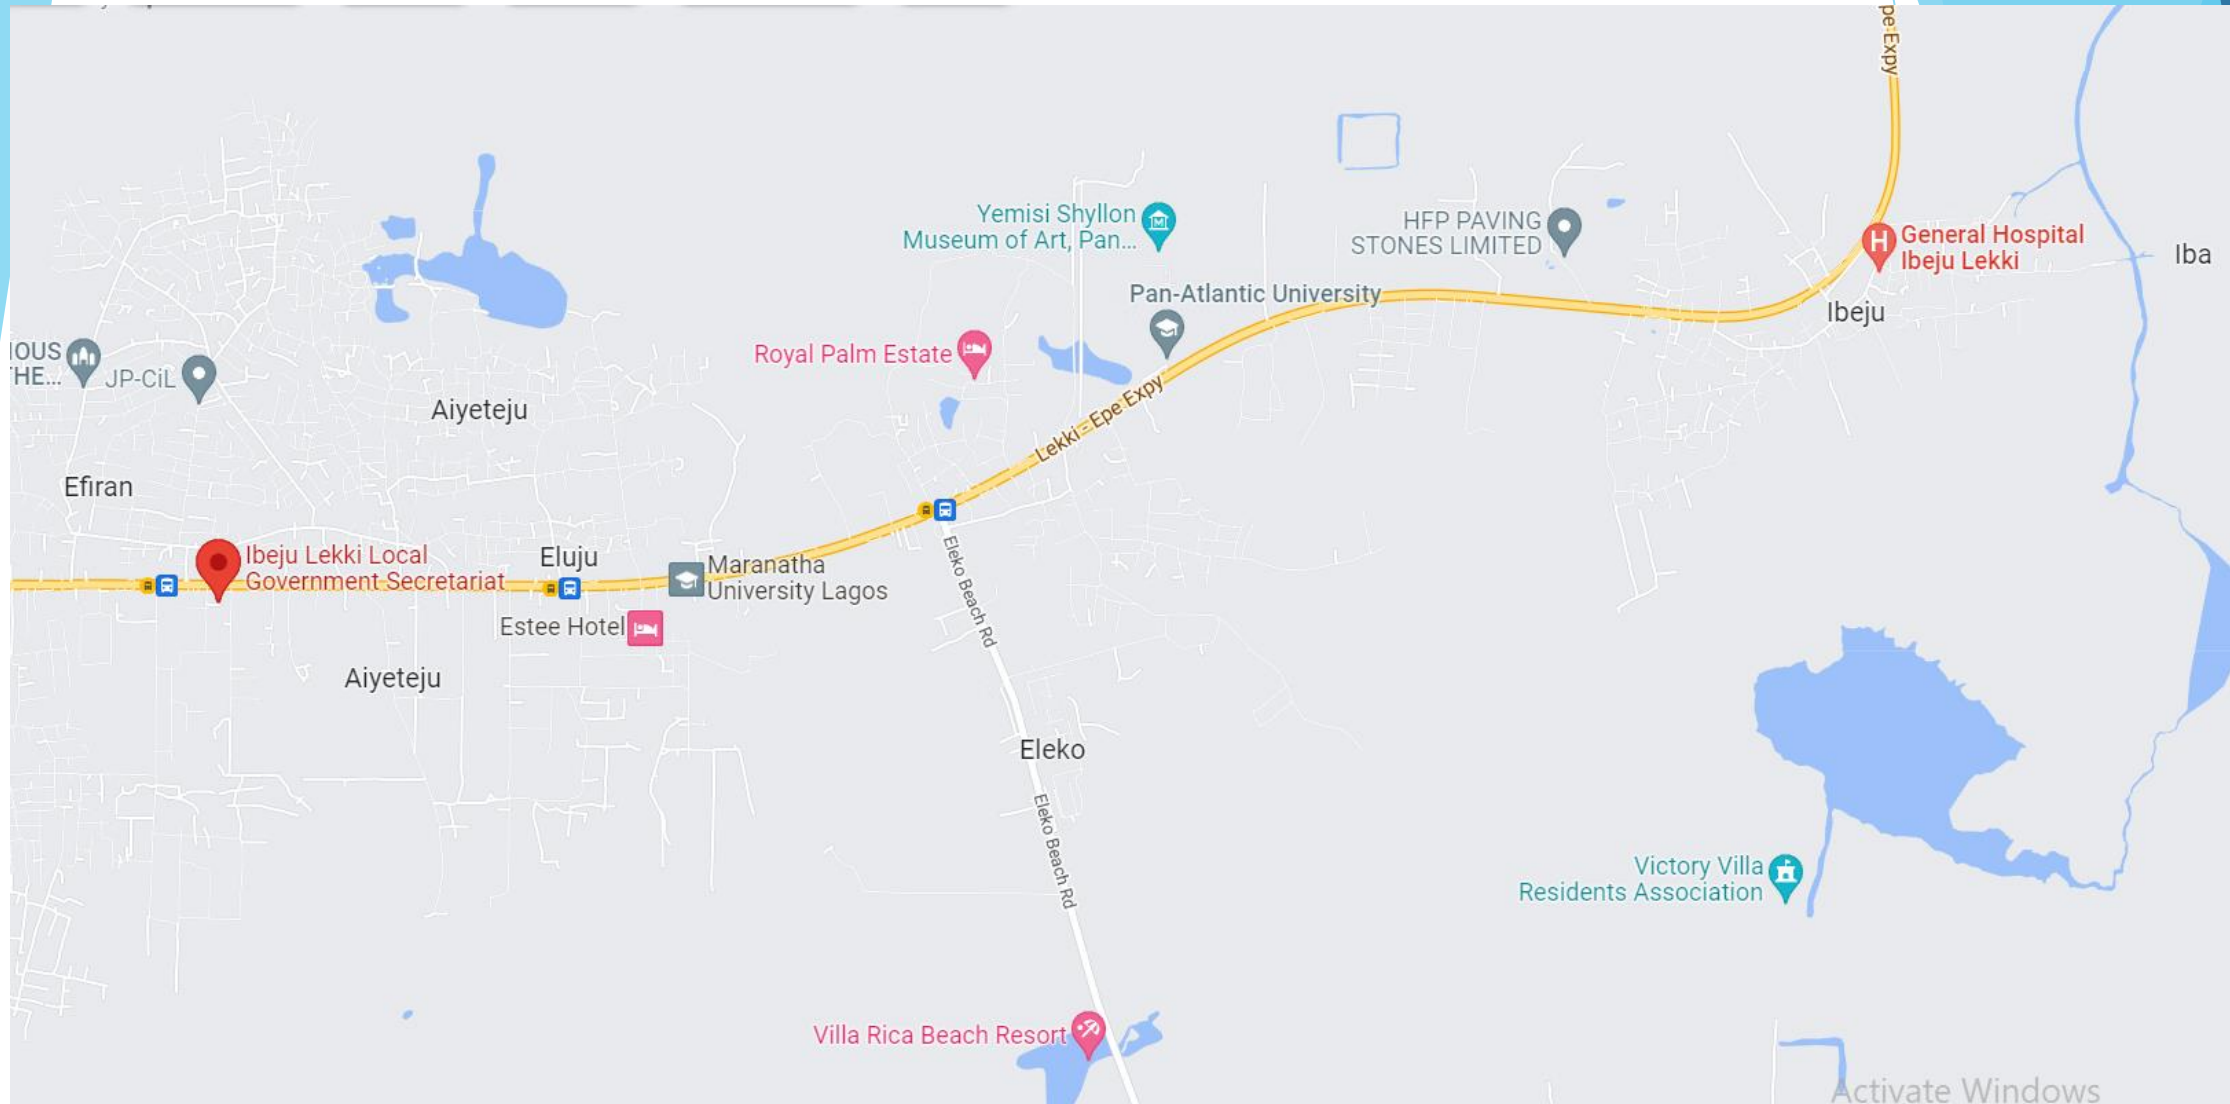

BACKGROUND

New Lekki District of Ibeju-Lekki is located in the northern part of Ibeju-Lekki area. New Lekki boundary begins from Ibeju Lekki secretariat towards Epe (Itunu estate as our boundary with Epe) then from Eleko junction towards Lekki Free Trade Zone as coverage area.

The purpose of the exercise is to carefully identify existing religious houses (church & mosque) within the district area for purpose of Post Construction Audit, and database collation while using the following data:

**numbers of floor *location coordinate *status (in-use / under-construction)
*approval status *structural status and pictorial images*

CHALLENGES

- Certain areas are volatile to access.
- Some religious premises are not accessible as at the time of conducting this exercise.
- Some areas are without excision which makes it difficult to submit application for Development Permit.

CONCLUSION

- It is pertinent to note that the Post Construction Audit (PCA) of Religion houses can not be overemphasized and as such it will help in the database collation to know the level of their spread, compliance and structural needs. Essentially, for the future plan of the state which should be in line with the Physical Planning Rules and Regulation.
- This exercise supports the popular opinion that New Lekki is a developing district which makes it a massive opportunity for government to take the advantage to achieve a world class competitive Masterplan within this axis.

Thank you!!
