EFFECTS OF RELIGIOUS CENTERS IN THE AREA

Majority of the religious centers does not have enough parking space to accommodate members' demand.

Most religious centers violates fire and emergencies code by not creating adequate ENTRANCE and EXIT for their member.

Increase of human population in religious centers at various time of worship can expose the area to security risk.

What's Next

Government would need to think about regulating number of religious centers in residential areas.

Government need to ensure compliance of Fire and Emergency codes in religious centers.

Thanks for listening!
