LAGOS STATE BUILDING CONTROL AGENCY

MASTER PLAN AND LAND USE MAP OF BADAGRY DIVISION

INTRODUCTION

Badagry shares boundary with Republic of Benin in Badagry West and Olorunda in Badagry Central.

The Badagry Area is a Lagos State administrative division as well as a local government area. It is located in the south-western section of Lagos, surrounded to the south by the Gulf of Guinea, and is located 69.20 kilometers southwest of Lagos and 51.499 kilometers east of Seme, a border town in the

Benin Republic.

Fishing, agriculture, academic institutions, military barracks, historical sites, and other activities are among the diverse traits and activities found in the subregion. Significant developer interest has recently surfaced in the Badagry subregion, which contains enormous swaths of undeveloped land on the outskirts of the Mega City.

(MAJORLY AGRIC LANDS)

VACANT PLOTS, ONGOING BUILDING CONSTRUCTION, ABANDONED BUILDINGS, RENOVATION AND REMODELLING BUILDINGS IN BADAGRY DISTRICT

BACKGROUND OF THE STUDY

The Lagos State Government is forward thinking in its preparations to drive growth and development in the state, which has impacted the directives of the General Manager of Lagos State Building Control Agency, Arc. Gbolahan Oki to all Supervising Directors in the Agency to come up with the Compendium of all Vacant plots, Ongoing Building Construction, Abandoned Buildings and Renovation/Remodeling Buildings in their various districts.

STATEMENT OF THE PROBLEM

Studies have shown that population and urbanization trigger changes in land use.

In Lagos metropolis certain factors collectively account for the rapid growth and expansion.

Proper planning requires identification of vacant plot/undeveloped land, abandoned Buildings, ongoing construction and Renovation/Remodeling Buildings within Badagry District. Hence the need to get real data on the available vacant plots, abandoned buildings, renovation and remodeled structures and ongoing Building construction works for development purpose.

VACANT PLOTS, ONGOING BUILDING CONSTRUCTION, ABANDONED BUILDINGS, RENOVATION AND REMODELLING BUILDINGS IN BADAGRY DISTRICT

AIMS AND OBJECTIVE OF THE STUDY

The aim of the preparation and collation of vacant plots, ongoing Building construction, abandoned buildings, renovation and remodeling Buildings of existing structure within the Badagry Central and Badagry west axis is to identify the land usage on each above categories, which stimulate orderly growth and development within the town, which by extension will connect to other communities in Lagos State towards ensuring unified growth and physical development within the state.

Objectives The objectives of the study are as follows:

- To identify lands that are vacant, Abandoned Buildings, Ongoing Building Construction and Buildings under renovation or remodeling within Badagry District.
- To prevent unforeseen Building collapse due to Buildings that have been abandoned for a long time and therefore become dilapidated.
- To compare the total number of ongoing building construction to the total number of approvals granted by LASPPPA within Badagry district.
- To Compare the total number of renovation/remodeling buildings to the renovation permit granted by LASPPPA within Badagry district.
- To provide detailed plans that will ensure that desired growth and development are achieved in a coherent and orderly manner in the within the Badagry town.

VACANT PLOTS, ONGOING BUILDING CONSTRUCTION, ABANDONED BUILDINGS, RENOVATION AND REMODELLING BUILDINGS IN BADAGRY DISTRICT

SIGNIFICANCE OF THE STUDY

It has been suggested for example, that the increasing rate of unapproved building and building-use conversion may be one of the major causes of increasing building collapse in the state which underpinned the relevance of the study that focuses on the available plot of land, abandoned structure, renovation and remodeled building and ongoing construction in the state particularly in the context of how the reversal of strict property-use control may be enforced in the state.
